

Poster Board #	Code	Group 1 - Monday, 13 May 2019 12:45-1300	
Topic: Orthogeriatrics & Fragility Fractures			
1	P01	Dr Carol Hunter	Delirium Reduction by Analgesia Management in Hip fracture Surgery (DRAM-HF): A pre-trial survey exploring barriers and enablers to implementing clinical change
2	P02	Dr Jeremy Cheuk Kin Sin	Therapeutic prevention of fractures after neck of femur fracture - a rehabilitation perspective
3	P04	Dr Hasanka Ratnayake	Does an outpatient hip fracture clinic meet previously unmet care needs?
4	P05	Dr Jemma Cranney	Retrospective Review of Adherence to National Hip Fracture Guidelines in Patients with Neck of Femur Fracture after Implementation of a Local Clinical Neck of Femur Fracture Pathway
5	P06	Dr Kate Zhang	In-hospital management and clinical outcomes of older patients presenting with non-hip, non-wrist fragility fractures: a retrospective cohort study.
6	P07	Dr Scott Reeves	Audit of osteoporosis investigation and management in patients presenting to an orthopaedic fracture clinic with minimal trauma fractures.
7	P08	Dr Rachel Norton	Fragility fracture secondary prevention in an Australian regional hospital
8	P09	Dr Yen Hun Wee	Hip Fracture Care at The Alfred
9	P10	Dr Siti Nurbaya Mohd Nawi	A Retrospective Observational Study on The Type of Anaesthesia in Hip Fracture Surgery.
Topic: Falls			
10	P11	Professor Maw Pin Tan	Mild cognitive Impairment, Risk of Falls and Fear of Falling in Older Persons: One-year Follow up from MELoR study
11	P12	Dr Joe Wei	Retrospective audit of factors associated with serious falls presentations to the Emergency Department from residential aged care facilities
12	P13	Dr Vivian Lee	Examining the management of in-hospital falls with serious outcome
13	P14	Professor Maw Pin Tan	Is Obesity Associated with Falls Among Older Adults? Evidence from The Malaysian Elders Longitudinal Research Study
14	P15	Dr Jing Wei Lim	Risk factors for inpatient falls identified from patient profiles in a psychogeriatric ward
15	P16	Dr Joyita Bhattacharya	An Epidemiological Study of Falls Presentations in the Elderly in a Regional Hospital
Topic: Parkinson's Disease			
16	P17	Dr Nooi Hoay Ang	Parkinson's disease – reasons for non-elective hospital presentation, length of stay and hospital representation in 6 months
Topic: Rehabilitation			
17	P18	Dr Thinza Moe	Sleep and rehabilitation participation in hospitalised older people
Topic: Sleep			
18	P19	Dr Jun Yew Tay	A systematic review of methods of measuring sleep in hospitalised older people
Group 2 - Monday, 13 May 2019 15:10-1525			
Topic: Health System & Service Provision			
19	P20	Dr. Htun Htun Naing	Re-admissions of medical geriatric patients: incidence and predictors
20	P21	Ms. Kathryn Smith	Re-engineering an Aged Care Assessment Team
21	P22	Dr Steven Savvas	Evaluation of an Enhanced Care Program for Residential Aged Care
22	P23	Mr Richard Bolitho	Evaluating clinician's opinions on the addition of a pharmacist to an Australian outpatient memory clinic
23	P24	A/Prof Peter Gonski	RADIUS, A novel model of care reducing Emergency and Hospital Admissions
24	P25	Ms Leslie Heap	Quality Assurance Processes in a Care Awaiting Placement Facility
25	P26	Dr Anna Taylor	Assessing the Effect of a Community Outreach Geriatric Clinic
26	P27	Dr Robert Prowse	A Report of twenty years as a Geriatrician providing services to a regional Australian town
27	P28	Dr William Lawson	An Audit into Inpatient Clinical Aggression Response Team (C-ART) calls in a NSW Public Hospital
28	P29	Dr Tam Ho	Northern Adelaide Transitional Care Program Service Outcomes
29	P30	Dr Jim Wong	Readmissions in the Elderly – The Geriatric Revolving Door
30	P31	Dr Hamed Zinsaz	Initial experiences of an inreach service providing iron infusions in nursing homes
31	P32	Dr Gillian Mitchell	Assessment of goals of patient care (GOPC) form completion when introduced to a tertiary geriatric evaluation and management (GEM) unit.
32	P33	Dr Anna Taylor	Outcomes from AGES: An evaluation of the holistic Acute Geriatric Evaluation Service at Toowoomba Hospital
33	P34	Dr Vasko Ilievski	A Qualitative Audit into Inpatient Clinical Aggression Response Teams (C-ART) in an NSW Hospital
34	P35	Dr Rihan Shahab	A comparison of geriatric consultation service between public and private hospital
Topic: Incontinence			
35	P36	Dr Roshini Sandra Mohan	A Retrospective Review of Our Clinical Experience in the Use of Mirabegron for Management of Overactive Bladder Symptoms in the Elderly

Group 3 - Tuesday, 14 May 2019 13:15-1330

Topic: Delirium

- 36 **P37** Miss Amy Montgomery Diagnostic Accuracy of Delirium Assessment Tools in Critical Ill Patients: A Systematic Review and Meta-analysis
 37 **P38** Dr Jonathan Zimmerman Evaluation of the 4AT as a tool to screen for delirium in patients on a General Medicine ward.
 38 **P39** Dr Alice Bourke Prevalence and outcomes of delirium following Cardiothoracic Surgery
 39 **P40** Dr Khin Thu The Role of Constant Personal Observation (One-to-One Special) Care in The Management of Delirium: A Retrospective Analysis
 40 **P41** Dr Emma Lightbody Delirium prevention and management: A qualitative analysis of junior medical staff knowledge and attitudes.
 41 **P42** Dr Reena Rau Systematic Review On Melatonin In The Prevention Of Delirium In Older Hospitalised Patients

Topic: Cognitive Decline

- 42 **P43** Dr Lisa Kalisch Ellet Comorbidity Profile and Medicines Use in People with Dementia: an Australian population-based study
 43 **P44** Dr Faridur Rahman Alcohol Related Dementia (ARD): A Narrative Review on Pharmacological Management
 44 **P46** Dr Lea Starck The great pretender or generalised paresis of the insane: retrospective analysis of serological screening tests in a memory clinic in northern Australia.
 45 **P47** Dr Vanishri Marshall Memory Clinic Review of a Western Australian Outer Metropolitan Hospital over a one year period
 46 **P48** Dr Jim Wong Diabetes and Dementia in the Geriatric Population – The Icing on the Cake

Topic: Nutrition & Frailty

- 47 **P49** Dr Jing Wei Lim Nutritional status as assessed by the Mini Nutritional Assessment predicts the duration of hospital stay in geriatric patients admitted for general surgery
 48 **P50** Dr Beatriz Arakawa Martins The self-perceived importance and competence of 5th year medical students in assessing, diagnosing and managing frailty before and after a geriatric medicine course
 49 **P51** Dr Panchi Kumarasinghe Clinical Frailty Scale Assessment in Routine Outpatient Nephrology Practice: An observational study of feasibility and utility
 50 **P52** Dr Stephanie Armstrong Profile of people in long-stay residential aged care in the Riverina region of NSW

Group 4 - Tuesday, 14 May 2019 15:40-1555

Topic: Miscellaneous

- 51 **P53** Dr Sarah Younan Attitudes to influenza vaccination among geriatric medicine inpatient staff
 52 **P54** Dr Rihan Shahab Incidental findings during workup for Transcatheter Aortic Valve Implantation (TAVI)
 53 **P55** Dr Apama Arjunan The journey of the 'acopic' patient: A retrospective observational study assessing 'social admissions'

Topic: Palliative Care & Advanced Care Directives

- 54 **P56** Dr Seok Lim Provision Of Weekend Palliative Care Via Residential In-Reach
 55 **P57** A/Prof Peter Gonski Implementation of advance care planning for patients with advanced illnesses attending hospital outpatient clinics
 56 **P58** Mr Paul Tait Symptom Management in the Terminal Phase: Turning Challenges into Opportunities
 57 **P59** Dr Yves Choi Introduction of a physician-led intervention to increase advance care planning completion in hospitalised older adults in Geriatric Evaluation and Management wards at Eastern Health in Victoria
 58 **P60** Dr Sarah Brown Advance Care Planning in Older Persons with Chronic Kidney Disease – an Australian Metropolitan Tertiary Outpatient Experience
 59 **P61** Dr Lisa Huang The Completion Rate of Valid ARP at Logan Hospital

Topic: Pharmacology

- 60 **P62** Dr Anna Taylor Effect of Pharmacy Reconciliation and Intervention in the Community as part of the Hospital in the Home Program
 61 **P63** Dr Sabrina Lau Barriers to Effective Prescribing in the Elderly: Applying the Theoretical Domains Framework in the Ambulatory Setting
 62 **P64** Dr Lisa Kalisch Ellett A comprehensive list of medicines with anticholinergic, sedative or falls risk properties: development of a risk assessment tool for the Australian setting
 63 **P65** Dr Nupur Goyal Urine testing and antibiotic prescribing practices in a geriatric in-patient setting
 64 **P66** Mr Ziqiu Ming Maintenance of Deprescription of Proton Pump Inhibitors - A Pilot Feasibility Study
 65 **P67** Dr Anvesh Jackson EEG Changes in Patients on Antipsychotic Therapy: A Systematic Review

Topic: General Medicine

- 66 **P68** Professor Maw Pin Tan Clinical characteristics, healthcare utilisation and mortality across different age groups in patients with influenza-associated upper respiratory tract infections at a tertiary care centre in Malaysia
 67 **P69** Dr Fiona Tran A prospective study of the prevalence and causes of anaemia in an outpatient geriatric population
 68 **P70** Dr Roshini Sandra Mohan Antiplatelet Resistance In Ischaemic Stroke
